FACTS & FIGURES

The IBS Career Forum is one of the biggest university recruitment events in Portugal, bringing together top-talent from Iscte Business School, business leaders and HR professionals from the most exciting companies in the banking, insurance, audit & consulting, human resources, retail, services and tech industries.

As a response to the challenges brought about by the Covid-19 pandemic, its 19th edition will be entirely online, sponsored and powered by the Beamian platform.

Through the 9th and 10th of February, students will be able to interact with more than 60 companies using live video interview and chat features, available at the virtual stands. For the first time since its inception, the IBS Career Forum will have speed interviews sessions in both days, conducted by Iscte Junior Consulting and featuring some of the School's partner companies.

Below you will find some of the event's main points of interest and figures:
